BE EPOCH™

Reach Further. Provide the Ultimate in Care.

ENHANCE YOUR CURRENT APPROACHES

Achieve the versatility and flexibility you demand from technology, adapting to your proven technique, designed to never compromise patient outcomes.

ENGINEERED TO PROVIDE UNSURPASSED PATIENT SAFETY

Reduce radiation exposure and reduce the risk of major adverse cardiac events with soft catheters and robotic precision.

SEAMLESSLY MANAGE PATIENT CARE, SHARE INFORMATION

Improve patient care with information technology that allows you to focus upon the patient, collaborate globally and broadcast case information over the internet.

THE NIOBE™ ES

Robotic Navigation System

- Fast 125 ms response to navigator commands.¹
- Responsive real-time control of the catheter – where you need it, when you need it.
- New automations from our most advanced users will potentially make difficult techniques simpler.
